Super Blue Stuff OTC

Menthol – An effective, topically applied, analgesic pain reliever derived from the peppermint plant. Menthol, when applied at certain levels, is approved as a pain reliever by the FDA. Menthol has a cooling sensation and a slight peppermint fragrance.

Aloe Barbadensis Leaf Extract - Aloe Vera is used externally to treat various skin conditions such as cuts, burns and eczema. It is commonly believed that sap from Aloe vera eases pain and reduces inflammation. A study performed in the 1990s showed that the healing of a moderate to severe burn was sped up by six days when covering the wound on a regular basis with aloe vera gel, compared to the healing of the wound covered in a gauze bandage (Farrar, 2005).

Ascorbyl Palmitate - Ascorbyl palmitate is an ester (organic compound) formed from Vitamin C (ascorbic acid) and palmitic acid (an essential fatty acid found in animals and plants and used as an antioxidant). Ascorbyl Palmitate is a source of Vitamin C and is an antioxidant.

Calendula Officinalis Flower - The Common Marigold with its orange gold flower is familiar to most people. It was well known to the old herbalists as a garden-flower and for use in cooking and medicine. The Countrie Farme as early as 1699 mentions the Marigold as a specific treatment for headache, jaundice, red eyes, toothache and ague. (Ague is an old term

for fever.) Marigold is thought to act as a stimulant by temporarily increasing vital processes. In addition it helps the body to promote sweating which is helpful to fevers. The Marigold flower has historically been rubbed on affected areas as a remedy for pain, sprain and swelling. Interesting fact: the yellow flowers were at one time used to give cheese a yellow color

Coriandrum Sativum (Coriander) Seed Oil - Coriander, also called cilantro in North America, is an herb. Coriander is used for: easing arthritis pain because of its powerful anti inflammatory* characteristics; rheumatism (medical problems affecting the heart, bones, joints, kidney, skin and lung); painful joints; neuralgia (a painful disorder of the nerves); relieving migraine headaches; relaxes and soothes the nervous system; to keep bacteria from growing; a natural deodorizer. *Inflammation is a reaction of the tissue of the body to irritation, injury or infection. Inflammation often causes pain, redness, and swelling.

Cornflower (Bluebottle) Extract - The Cornflower, with star like blossoms of brilliant blue, is a wildflower. It is fairly common in cultivated fields and by roadsides. The flowers are the part used in modern herbal medicine and are considered to have characteristics that are tonic, which means invigorating or stimulating

Emu Oil - Emu oil reduces the visible signs of aging. Emu oil has many soothing health benefits including: rich in Essential Fatty Acids (EFA's) Omega 3, 6, 9; contains a high amount of Omega 6 (Linoleic Acid) which is known to ease the discomfort of muscle and joint pain; allows the EFA's to penetrate the layers of the skin down to a level that starts new cell growth; absorbs deeply and quickly into the skin; keeps skin moisturized and prevents dry and aging skin; help improve the appearance of wrinkles, stretch marks, burns, scars and damaged skin; increases oxygen to increase local blood flow where it is applied. This additional blood flow accelerates the healing process.

Super Blue Stuff OTC (Ingredients info cont'd)

Feverfew Extract - Feverfew is an herb, which was original to Europe but is now grown on several continents. Greek and European Herbalists historically used it to reduce fevers. Its long history in traditional medicine includes use as a treatment for what is usually controlled by aspirin. It is known as an effective treatment for migraine headaches, inflammations such as arthritis and for treating insect bites. It is the combination of ingredients in the feverfew plant that brings such effective results. Clinical tests have shown the use of feverfew may reduce frequency and severity of headaches. It may be more effective than other nonsteroidal anti-inflammatory products (NSAI DS), like aspirin.

German Chamomile Extract - German Chamomile is an annual plant of the sunflower family originally grown in Europe. It has also been used for hundreds of years because of its perceived skin healing properties. German Chamomile is known to have anti-irritant, anti-inflammatory and anti-bacterial qualities.

Glucosamine - has been proven in numerous double blind, placebo-controlled studies to ease the pain of arthritis. Glucosamine has also been shown to aid in the rehabilitation of cartilage and slow down the progression of osteoarthritis. All forms of Glucosamine originate from Shellfish.

Grape Seed Extract - Considered one of the best natural sources of antioxidant protection. It is especially beneficial for cardiovascular health; it fights free radicals and gives antioxidant protection to the entire body. It is anti-inflammatory, antihistamine and antiallergenic. It is also a free radical scavenger. Grape seed extract has been known to help Vitamin C enter the cells and to treat deteriorating diseases and conditions with great success. It is also known to be successful at: Strengthening and supporting the cardiovascular system; strengthening weak blood vessels; promoting tissue elasticity healing injuries; reducing swelling and edema; promoting tissue elasticity; restoring collagen; improving peripheral circulation; preventing bruising; improving the performance of immune and nervous systems.

Tilia Cordata Flower (Linden Flower or Lime Tree) - Linden is an herb, which is derived from the lime tree and has been used in European traditional medicine for centuries. It is known to treat a wide range of health problems. The flowers are often added to baths. The active ingredient in Linden helps the body to promote sweating which is helpful to fevers.

Methylsulfonylmethane (MSM) - MSM is composed of 34% bio-available sulfur, making it the richest source of organic sulfur available. MSM is a safe, natural, assimilable food, which assists the body in maintaining adequate sulfur stores. MSM may support the body in regulating insulin production, improving skin smoothness and elasticity, regulating environmental and allergic sensitivities, enhancing bowel function and liver detoxification, and enhancing respiratory function.

Urtica Dioica (Stinging Nettle) - In the United States many remarkable healing properties are attributed to nettle and the leaf is utilized for different problems than the root. The leaf is used here as a diuretic, for arthritis, prostatitis, rheumatism, rheumatoid arthritis, high blood pressure and allergic rhinitis. The root is recommended as a diuretic, for relief of benign prostatic hyperplasia (BPH) and other prostate problems, and as a natural remedy to treat or prevent baldness.
Hamamelis Virginiana (Witch Hazel) -

Roman Chamomile Extract - Roman Chamomile is an herb known for its anti-inflammatory properties.

Salix Alba (Willow) Bark - Willow bark is from a tree native to Europe and Yugoslavia. Willow has been used for centuries to ease discomfort associated with the joints, muscles and inflammation. The bark is best known for its pain-relieving and fever-reducing qualities. In the early 19th century, a French chemist took the principal active ingredient from Willow Bark, and named it salicin. At the end of the century a chemist at the Bayer Company in Germany used salicin to develop the world's most used medication. It is called aspirin, or acetyl-salicylic acid. Many well-known drugs come from this plant compound. Recently, pain sufferers are returning to the natural sources of salicin to avoid the potentially dangerous side effects of synthetic aspirin.

With Hazel Extract - A deciduous shrub or small tree found in North America. It has exceptional soothing, cleansing and healing properties. The extract from the bark and leaves is used in therapeutic medicine and in treating bruises. The word witch comes from the Old English meaning pliant or bendable.

Sodium Cocoyl Isethionate (bean derived) - This fatty acid derived from a bean is an excellent ingredient in mild and biodegradable products. What it basically does is make water wetter, and allows the product to spread easier. It is totally friendly to the environment thus improving the product in several natural ways.

Sodium Hyaluronate - This is a mixture that is made up mostly of natural and purified sodium. It is similar to a substance that occurs naturally in the joints and that acts as a lubricant and shock absorber.

Super Blue Stuff OTC (Ingredients info cont'd)

Sodium Hydroxide - Also known as caustic soda. This ingredient is used to neutralize acid and control the PH of the product.

Sorbitol - Sorbitol comes from fruit and berries. It is used to dissolve oil into water.

2-Phenoxyethanol - This is an organic compound that has the consistency of an oily liquid and is used to prevent bacteria.

Vitamin E (Tocopherol) - Tocopherol, or vitamin E, is a fat-soluble vitamin that is an important antioxidant. Vitamin E is often used because it is commonly believed to play a role in encouraging skin healing and reducing scarring after injuries such as burns.

Disodium EDTA - This is a sodium salt, which is used as a preservative.

Carbomer - Carbomer is a trade name that is used as a thickening agent.

Purified Water, FD&C Blue #1, Peach Fragrance

What Makes Super Blue Stuff So Effective?

Super Blue Stuff OTC with Emu Oil is **BLUESPRING's** newest version of the Original Blue Stuff seen on television in 2001 and 2002. Millions of this "miracle in a jar" have been sold. Customers come back again and again and not only recommend but share it with family and friends. Super Blue Stuff was the original pain reliever featuring Emu oil. Others have copied it, but none have surpassed it in quality or amount sold.

The active ingredient in **Super Blue Stuff OTC** is menthol. Topically applied, menthol is an analgesic pain reliever. The key is using the right amount, as too much can cause a burning sensation. But if used in the right amount, menthol can have a cooling effect and that's just one more reason so many people love **Super Blue Stuff OTC**. In fact, due to the exacting method **BLUESPRING** uses to make **Super Blue Stuff OTC**, it's now registered with the FDA and Health Canada as an over-the-counter drug.

Menthol is not the only ingredient that makes **Super Blue Stuff OTC** so effective. Herbal medicines have been used over the centuries by cultures around the world to help the body deal with a variety of ailments. These ingredients, Whole leaf Aloe vera, Emu oil, Glucosamine, Grape seed oil extract, MSM (MethylSulfonylMethane) and Vitamin E tocopherol have been credited in helping with:

- Easing pain of arthritis
- Slowing down progression of osteoarthritis
- Maintaining joint support and joint health
- Easing discomfort of muscle and joint pain
- Anti-inflammatory
- Reduce swelling and edema (excessive accumulation of fluid)
- Maintaining normal range of motion
- Building healthy connective tissues as those found in joint cartilage
- Improving peripheral (external) circulation
- Ease of pain and inflammation
- Increase oxygen to increase local blood flow and accelerate the healing process.
- Aiding in rehabilitation of cartilage
- Speeding up healing time
- Improving the appearance of burns, scars and damaged skin
- Burns and eczema
- Promoting tissue elasticity
- Prevent bruising
- Encourage healing and reduce scarring after burns

Super Blue Stuff OTC with Emu oil provides topical pain relief quickly. Millions of people have used and recommend **Super Blue Stuff OTC** to their family and friends. Many find it works in as little as five minutes to relieve the pain associated with:

- Arthritis
- Joint Pain
- Backaches
- Muscle Pain
- Sprains and Strains
- Bruises
